

# Artisan Bristol City Wall Limited Delivery Management Plan – September 2023

The proposed tenants of the Commercial Units are corporate offices and will have very few deliveries if any at all. Potential deliveries would be stationary equipment which would be on an ad hoc basis.

## Delivery path and point of entry:

The delivery management plan below is that of the hotel. The commercial unit's entrance is just opposite the loading bay. On the rare occasion office supplies are delivered the vehicle will use this loading bay.
