**Subject:** [P2110462] Tree work in conservation area

I sent you a mail on this application earlier today to which I wish to amend and re-submit. Two photos are attached. The two self applied are on the boundary of my property and that owned by the Parish Council. They agree that these trees are getting over large and require pollarding to a previous level about 10 feet from ground level. This has been confirmed by one of the contractors approached about the work.

Regards

**Bruce Rogers**  
Chairman  
1 Construction Bangladesh Heredia's Agency 1922466  
1922466

The two trees are those in the foreground on the left hand border of our garden  
Indicating the height of the trees in relation to the 8 ft garden case register
