Subject: [3/10/23] Tree work in conservation area

I sent you a mail on this application earlier today to which I wish to amend and re-submit. Two photos are attached. The two self applied are on the boundary of my property and that owned by the Parish Council. They agree that these two trees are getting over large and require pruning to a previous level about 10 feet from ground level. This has been confirmed by one of the contractors approached about the work.

I attach the identification in the 6 weeks documents for each work.

Regards

Bruce Ingeby
