

The Old Church, Mockbeggar Lane, Ibsley

Roof Repairs

DESIGN & ACCESS STATEMENT

- The existing roof is in poor condition and beyond repair. In order to save the internal roof structure, internals of the buildings and protect the monuments the roof covering is being replaced
- New roof will give a guaranteed life of 60 years, expected life of the material can reach 100 years
- There is no change to the site or its setting
- All materials are suitable for the repairs required and for the type of building, standing of the building and Listing
- Internal insulation works to replace the poor workmanship of the current installations and also to create a usable, better insulated, building. Building is currently extremely poor energy efficiency wise
