

Design and Access statement:

Old Smithy (21 Mill End Road)

There is absolutely no change to the present building, but the native hedging is designed to improve the street view. Gates to be fitted in front of the open space at the left of the building are 4mx1.8m rectangular with vertical infill, aluminium, painted RAL black. Pedestrian gate in front of the building's access door are wooden, 900mmx1580mm, to be painted black. A picture of the gates is supplied.
