

## Climate Emergency Compliance Form for 12 Bakers Place, PL1 4LX

Householder applications are required to complete the relevant sections of this form. Any form with blank entries will not be accepted and the planning application will not be able to be validated until the form is complete.

It may be that not all of the requirements apply to your householder proposal, please look at each of the requirements and consider what can be achieved within your proposal. Please refer to the [Climate Emergency Planning Toolkit](#) if you need further information.

In the event that any of the requirements are not met in full, please explain why this is the case and identify any proposals to mitigate the impact of non-compliance. This may be because your proposal is too small, or of a particular type, and that the requirement isn't applicable – this needs to be briefly explained in the appropriate column. Completion of this form is a validation requirement and the local validations lists have been updated to include this.

<b>Climate Emergency Compliance Form</b>			
<b>Requirement</b>	<b>Is the requirement being met onsite?</b>  <b>In full (F)</b> <b>In part (P)</b> <b>Not at all (N)</b>	<b>If 'in full or in part', which document/plan is the evidence included in;</b>	<b>If 'not' or 'in part', please explain reason for non-compliance and identify any measures you are proposing to mitigate for the non-compliance</b>
<b>Mitigation</b>			
M1 – Min 1kw of onsite renewable energy generation	P	<i>(Panels shown on roof plan and elevations)</i>	The proposal is for minor alterations to an existing roof. It is estimated that the roof area & location would make the installation of a PV array not be viable in terms of energy return, however this will be reviewed at time of construction based on available PV technology.
M4 – Resilient and low carbon building materials	F	<i>(Proof of slate origin and warranty period)</i> The existing roofing will be re-used as required to patch-up after the alterations. Natural slate is not a requirement. The only new materials will be for replacement high thermal performance windows. To improve thermal efficiency, reducing heat loss. Also a higher performance flat roof will be installed with greatly improved insulation below (as required by Building Regulations).	<i>(May not apply if we aren't prescribing that natural slate needs to be used for conservation or heritage reasons.)</i>

OFFICIAL

M6 – Electric vehicle charging points	N/A N/A	<i>(Shown on plan if extension is adjacent to parking space. Should be shown as a minimum 7kw charger.)</i> Application is for a minor alteration to an existing roof	<i>(Will not be applicable if the proposal isn't adjoining an existing off-road parking space)</i> Application is for a minor alteration to an existing roof
<b>Adaptation</b>			
A1 – Passive solar design <i>(All apps)</i>	N/A	Additional documentation not required whilst this measure is under review.	Additional documentation not required whilst this measure is under review.
A2 – Protecting our soil resource <i>(All apps)</i>	N/A	<i>(Supporting statement if applicable)</i> NOT APPLICABLE	Application is for a minor alteration to an existing roof
A3 – Protecting and enhancing tree cover <i>(All apps)</i>	N/A	<i>(Supporting statement if applicable)</i> NOT APPLICABLE	Application is for a minor alteration to an existing roof
A4 – Protecting and enhancing gardens, green spaces and greenfield sites <i>(All apps)</i>	N/A	<i>(Supporting statement if applicable)</i> NOT APPLICABLE –	Application is for a minor alteration to an existing roof
A5 – Delivering sustainable drainage, surface water management and restricting urban creep <i>(All apps)</i>	N/A	<i>(Supporting statement if applicable)</i> NOT APPLICABLE	Application is for a minor alteration to an existing roof – no change to the overall built area is proposed
<b>If an offsetting contribution is being proposed to mitigate the impacts of non-compliance, please refer to the most up-to-date Greater London Authority Carbon Offset Funds guidance</b>
