

Appendix D

Photographs of Site

Conversion of circular water tank to residential use with raised side walls and new roof; new single storey link to existing barn; change of use of agricultural land to garden land; demolition of detached double garage/store, machinery store and raised water tank; erection of a cart store garage with associated building works, parking and landscaping.

Minor changes to internal layout of barn and the position of windows in north-east and north-west elevations from those permitted by Prior Approval (22/503478/PNQCLA).
