NOTES

Performance in each component is given in four grades - DIST (Distinction), CRED (Credit), PASS or FAIL. ABS means 'absent' and XMT 'exempt' from the component concerned.

REF is used instead of FAIL to indicate that you need retake only the component(s) concerned and, if successful, will qualify for the award of the certificate.

Your name as printed above will appear on any certificate to be awarded. If it is incorrect, notify the examination centre immediately.
