Notes

Do not scale this drawing

This drawing shall be read in conjunction with all other relevant Engineering, Architectural, Landscaping details, drawings and specifications and all relevant Highway Authority Plans.

The locations of statutory undertakers plant shown on this plan are approximate only and have been taken from the report provided from Cornerstone Projects Ltd. The exact location of plant to be located on site before any other works start. Trial pits are to be dug to determine the location of said plant.

Statutory Undertakers Plant that lie under the proposed carriageway shall have a minimum cover of 750mm or 300mm below formation whichever is the greater.

Cable or cable ducts shall be surrounded by 100mm minimum lightly compacted graded sand, with the remaining material required to fill the necessary void to be Class 8.

Cable covers or marker tape are to be used and located 250mm - 300mm directly above the cable at the discretion of the Overseeing Organisation or Highways Agency.
