

[zappi](#) is an EV charger with a difference. Not only does it operate as a standard EV charger, but it also has optional charging modes to utilise 100% green energy generated from your Solar PV or wind generation. Increasing the Return On Investment (ROI) for your panels and electric car, the zappi is easy to install and user friendly. But don't worry, if you don't have solar panels installed, the zappi will still operate as a standard EV charger harnessing power from the grid.

Being the first-ever solar EV charger of its kind, our innovative team has carefully designed features and functions to give you complete control of your electric car charging experience. Paired with the myenergi app, you can set timers to utilise economy tariffs, use the boost function, monitor your devices, and so much more!

This future proof, intelligent electric car charger was conceived, evolved, and manufactured in-house right here in the UK.

## Tech Specs

### Electrical

#### Specification

Rated Power

Rated Supply Voltage

Supply Frequency

Rated Current

Standby Power Consumption

Integral Protection

Economy Tariff Sense

Tethered Cable Length

### Mechanical

#### Specification

Enclosure Dimensions

Protection Degree

Enclosure Material

#### Details

7kW (1-ph) or 22kW (3-ph)

230V AC Single Phase or 400V AC 3-phase (+/- 10%)

50 Hz

32A max

3W

6mA DC Protection (RDC-DD) in accordance with IEC 62955

Input 230V AC sensing (4.0kV isolated)

6.5 Metres

#### Details

439 x 282 x 122mm

IP65 (weatherproof)
