

Construction, Design and Management Regulations 2015
 Due to the "domestic" nature of the project it is assumed the client duties under regulation 5 of the cdm 2015 will be passed to the contractor. In the event the client decides to use more than 1 contractor, the client is to contact the designers immediately to discuss the appointment of a principal designer and principal contractor under regulation 5 of cdm 2015 - it is essential that adequate time is provided for the preparation of the pre-construction documentation and construction phase plan.
