

Figured dimensions to be followed in preference to those scaled from drawing.
 All dimensions to be verified on site by the contractors and such dimensions to be their responsibility.

Drawing omissions and errors to be reported immediately to the architect.

Please note these drawings are indicative and do not define the detailed construction sequencing proposals. Detailed construction phasing, and associated works will need to be reviewed with the main contractor to establish actual construction sequences, duration and how best to align these with the proposed delivery of each phase of works. Hoarding lines are not finalised and subject to main contractor construction sequencing. Relocation and re-positioning of all hoarding to be kept to minimum.

Main Contractor to ensure demolition and construction noise, dust and vibrations to be minimised where possible.

These drawings are based on unverified survey data and are subject to confirmation of the final full building survey data.

- HOARDING (to contractor's proposals)
- DEVELOPMENT BOUNDARY

General Notes:

To be read in conjunction with Architect drawings:
