Good Morning Matthew,

Thank you for your email.

We are content with the revised description of development.

I have attached the plans which were submitted through the planning portal, could you please advise why these are not acceptable for validation? Each plan clearly shows the floor plan and elevations of the proposed buildings and can be measured at a scale of 1:50. I am unsure from your invalid letters what more we need to provide, could you please be more specific?

Kind Regards,

Hannah Lence
