Existing West Elevation (scale 1:100)

Existing South Elevation (scale 1:100)

Existing Ground Floor Plan (scale 1:100)

The drawings do not take into account any structural elements or calculations which must be obtained from a qualified Structural Engineer.
All building, electrical, plumbing, heating & structural works to be carried out in conjunction with the relevant BS standards.
Approval from a Building control officer & structural report from a structural engineer will be required.
All building & services finer details, finishes & decorations to be agreed with the client & main contractor.
All related building works, ground works & drainage works will require relevant investigation & testing to determine conditions & relevant works in line with BS standards & this to be agreed with a licensed building control officer.
All work to be carried out in accordance with the building regulations and the planning permission requirements of the local building control & planning authority.
For health & safety information, refer to the main contractors health & safety risk assessments & method statements.
The drawing is for information & pricing purposes only.
All dimensions are to be double checked & verified onsite by the Main Contractor before any construction work commence.
