

Proposed site for an ASHP at rear of 45A Portland Street, EH6 4AZ. **X = approximate site of ASHP.** (See elevation drawings for exact position.)

The distance from the rear of the property to the rear of the ASHP is currently 3250mm. If this is not satisfactory the ASHP can, maintaining 1000mm distance from the neighbour's wall be moved further away from the rear of the property to a distance of, for example: 3500mm / 3750mm / or 4000 .

The proposed distance of 3250mm is preferable. Photo measurements are not to scale.
