Re: 23/1672/HH - 2 x air source heat pumps The Dingle , Trefeglwys

Hello Louise

Here is the web page showing the Grant Aeron3 R32 heat pumps - we need 2 x 10kW ones and the actual dimensions of the 10kW ones (which were on the plans we submitted) are given lower down the page under specifications.

Is that sufficient?

Thank you

Ann Hirst
