

## Climate Emergency Compliance Form for minor and major applications

All applications are required to complete the relevant sections of this form. Any form with blank entries will not be accepted and the planning application will not be able to be validated until the form is complete.

All planning applicants should identify whether or not they are able to fully meet the mitigation and adaptation requirements set out in the adopted Climate Emergency Planning Statement. Please refer to the [Climate Emergency Planning Toolkit](#) if you need further information.

If the requirements have been met, please set out which document this is evidenced in. For example this could be:

- Energy Statement/Strategy;
- **Design and Access Statement;**
- Sustainability Statement,
- Sustainable Travel Plan,
- Energy Performance Certificate,
- [Standard Assessment Procedure \(SAP\)](#) or
- **Specifically indicated on plans, drawings or other compliance reports.**

In the event that any of the requirements are not met in full, please explain why this is the case and identify any proposals to mitigate the impact of non-compliance.

With regard to considering appropriate mitigation, please note the following:

- Plymouth and South West Devon Joint Local Plan ([JLP Policy DEV32.3](#)) anticipates that there could be circumstances where carbon reductions are delivered through off-site measures. This is reinforced by Policy DEL1.3 which anticipates the use of planning obligations for offsetting purposes in appropriate circumstances, and is further amplified in the JLP's companion [Supplementary Planning Document](#) (para 9.39).
- See para. 5.2 of the Climate Emergency Planning Statement for further information.

Completion of this form is a validation requirement and the local validations lists have been updated to include this.

<b>Climate Emergency Compliance Form</b>			
<b>Type of application (Delete as appropriate)</b>		<b>Major (Mj) or Minor (Mn)</b>	
<b>Requirement</b>	<b>Is the requirement being met onsite?  In full (F) In part (P) Not at all (N)</b>	<b>If 'in full' or 'in part', which document/plan is the evidence included in;</b>	<b>If 'not' or 'in part', please explain reason for non-compliance and identify any measures you are proposing to mitigate for the non-compliance</b>
<b>Mitigation</b>			
M1 – Onsite renewable energy generation	N	(Provide CEPS assistance spreadsheets accompanied by as designed SAP)  For majors submit the Energy Strategy and associated docs (see SPD flow chart on page 179)	Cannot be incorporated as part of the scheme.
M2 – Energy storage	N	Plans (floor plan or site plan)	Cannot be incorporated as part of the scheme.
M3 – Low and zero carbon space and water heating systems	N	(To include 'as designed' SAP as part of application, and 'as built' SAP to discharge condition).	Cannot be incorporated as part of the scheme.
M4 – Resilient and low carbon building materials	P	<i>(Proof of slate origin and warranty period)</i>	Brickwork of extension to match existing with darker shade of brickwork to contrast with cladding as shown. Flat roof behind parapet wall with fall back to existing. The existing shopfront and entrance door to remain as existing. Materials used for construction will be as sustainable as possible.

OFFICIAL

(All apps where natural stone is required by the LPA)			
M5 – Demolition and rebuild		(To include ‘as designed’ SAP and ‘up front embodied carbon assessment’ & Ceps assistance spreadsheet as part of application, and ‘as built’ SAP and ‘as built’ embodied carbon calculation to discharge condition).	Only applicable to applications where there is demolition involved
M6 – Electric vehicle charging points	N	Shown on relevant plans	Not applicable to scheme.
M7 Active and sustainable travel	N		Not applicable to scheme.
<b>Adaptation</b>			
A1 – Passive solar design	N/A	Additional documentation not required whilst this measure is under review.	Additional documentation not required whilst this measure is under review.
A2 – Protecting our soil resource	F	Phase I Preliminary Risk Assessment has been produced in order to establish evidence of potential contamination, if any, resulting from the past use of the site and current land use.	
A3 – Protecting and enhancing tree cover	F	Full Landscaping Scheme has been provided as part of the submission to show how the loss of any trees and shrubbery will be compensated for. Arboricultural Survey has been produced to show how the trees to be removed as part of the scheme will be of moderate to low quality, and a strategy for how any potential losses will be compensated for.	
A4 – Protecting and enhancing gardens,	F	Landscaping Scheme has been provided as part of the submission.	

green spaces and greenfield sites			
A5 – Delivering sustainable drainage, surface water management and restricting urban creep	F	Drainage Strategy will be submitted in support of the application as per the Councils requests.	
A6 – Delivering biodiversity net gain and habitat improvements	F	(Refer to relevant <a href="#">BNG Guidance</a> document and other ecology/BNG requirements on the local validation lists)	Landscaping / Planting Strategy has been provided.
<b>If an offsetting contribution is being proposed to mitigate the impacts of non-compliance, please refer to the most up-to-date Greater London Authority Carbon Offset Funds guidance</b>
