Thank you for your application received on 13 October 2023. I am writing to inform you that your application is incomplete for the following reason(s):

- 1 You need to submit an application for Planning Permission. The application form can be downloaded from: www.westminster.gov.uk/planning-building-and-environmental-regulations/planning-applications/application-types-and-checklist

Guidance on the application fee payable can be found at: www.westminster.gov.uk/planning-building-and-environmental-regulations/planning-applications/planning-application-fees

You will also need to submit a Community Infrastructure Levy (CIL) additional information form. The form can also be downloaded from the Council's website: www.westminster.gov.uk/planning-building-and-environmental-regulations/community-infrastructure-levy-cil.

- 2 You have signed Certificate A declaring that nobody other than the applicant has ownership of the building. This is unlikely to be correct, unless you are the sole owner of the building(s) affected by the development, Certificate B should be completed and

notice served on the freeholder and all those with a leasehold interest in the property with seven or more years remaining. Please provide a list of names and addresses of those you have served notice on. A copy of the certificate form can be found on the City Council's website. 3 Please provide a sustainable design statement.

INFORMATIVE

The statement should provide a proportionate level of information or commentary to demonstrate how the design has positively addressed the sustainable design principles set out in Policy 38D in the City Plan 2019-2040. This should include design implications arising from related policy in particular Policy 34B (urban greening), Policy 36 (Energy) and Policy 39 (Heritage). It should set out how consideration has been given to the energy hierarchy and cross reference other relevant documents including the BREEAM assessment, SuDs strategy, energy strategy, heritage statement and water calculations where provided and relevant. Any proposal involving demolition of a building should include a statement setting out why it is not possible to retain and improve the existing building in line with Policy 38, cross referencing the whole life cycle carbon analysis where required.

Where heritage assets are affected, this should cross reference the Heritage Statement. If incorporated within the Design and Access Statement, it should be a distinct and clearly identified separate section.
