Photos are attached of the current condition of the existing property at the above site.

These photos have previously been issued to East Cambs District Council Planning Department on the 16th of August 2023 and to Cambridgeshire County Council Archaeological Department on the 1st of August 2023.

The building has suffered from severe fire damage and there is very little fabric of the building remaining.

Condition 14 on planning approval 23/00332/FUL, this requests a program of Archaeological Historic Building Recording prior to demolition.

However as shown on the photos, there is little fabric of the original building remaining and the applicant considers a Historic Building recording in this instance is not required.

If a site visit is undertaken by Cambridgeshire County Council Archaeological Department or East Cambs District Council Department, care should be taken as the building is in a very poor condition.
