Hi Ken, it clearly shows the ash tree has dieback and I would recommend removal. The second ash tree next to it looks much better and should be monitored over the next few years.  
Thanks David Snowden.

Dear David,

e-mail as requested this morning. I have attached a couple of pics.

0699 is from 2nd September last year, 0732 a close up of the canopy from June this year.

Best regards - Ken Brigham
