The proposed replacement front boundary fencing is not considered acceptable due to the outlined potential impact. Overall, taking into account the significant set-back of the proposed front porch and the side/front canopy from the highway, their single-storey nature and relationship with the adjoining properties, the proposed front extensions would not cause an undue impact upon the street scene and would not undermine the character and appearance of the main dwelling and the wider area. The proposed roof alterations and the first floor side extension would considerably alter the shape and appearance of the main dwelling. Although the depth of the proposed rear extension would exceed the maximum depth (as suggested in the RDG) by 0.33m, the proposed structure would not be visible from the street due to its single storey nature and position at the rear of the property. Furthermore, the dwellings on the north-west side of Stratford Road are not consistent with the rear building line, and the neighbouring property at 46, Stratford Road has the existing side/rear extension which has a rear projection greater that the proposal. Thus, the proposed ground floor rear extension is considered acceptable on design grounds. The proposed large glazed windows at the upper-floor levels would be acceptable as there is no established architectural character on the street due to the outlined design variety.
Authority Employee/Member
With respect to the Authority, is the applicant and/or agent one of the following: (a) a member of staff (b) an elected member (c) related to a member of staff (d) related to an elected member
It is an important principle of decision-making that the process is open and transparent.
For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
