Heritage conservation  
roof window

## Sensitively enhancing the future value of historical buildings

A historical building is a gift from days gone by. It tells the tale of a rich and diverse building tradition. It shows us how life used to be.

The new Heritage conservation roof window is designed to be in harmony with historical façade aesthetics. Slim and elegant and sitting flush to the roofing material, it blends beautifully into historical roofs.

Inspired by today and tomorrow, as much as the past, it enhances modern indoor living and helps to transform spaces into favourite places.

---

### Designed for heritage

Co-created with conservation specialists and specifically designed to be in keeping with heritage aesthetics of traditional buildings, and properties located in conservation areas.

---

### Seamless fit

From the slim profile, down to the authentic glazing bar and step pane, every element of the Heritage conservation roof window is carefully considered.

---

### Made to last

Tried and tested in northern Europe's largest wind tunnel for wind and water resistance.

---

### Installation

Flashing kit for easier and faster installation as no time-consuming customisation with lead is required. Option of outside or inside installation for ultimate convenience.

# Heritage conservation roof window

Ideal for heritage, conservation and historical properties

The Heritage conservation roof window is designed to be in keeping with heritage aesthetics of historical buildings. Slim and elegant and sitting flush to the slates, it blends beautifully into the roofing material.

Thoughtfully co-created with Architects and Conservation Officers, it enhances modern living, while maintaining the building's original character.

- Sleek, slim-fit profile for an appearance in line with historic heritage
- Authentic top-hung design
- Crafted glass-to-edge technology for a clean appearance
- Central glazing bar for period authenticity
- Flashing kit developed for slate and plain tile roofs, for effortless installation (no need for manual lead flashing)
- Original hand-winder for natural ventilation
