Hi Oliver

Please could I answer no to question 8.1 and 8.2

Best regards

James

Good Afternoon

Thank you for your application.

I am writing to inform you that it appears that section 8 of the application form has not been filled out. Due to the Sycamore tree that you wish to carry out work on being covered by a Tree Preservation Order, the questions in section 8 of the application form must be ticked yes or no.

Please could you provide a yes or no answer to the questions in section 8 of the application form. I have listed them below:

8.1 - Is the tree(s) in question diseased or do you have fears that it might break or fall?  
Yes or No?

The application form states: "8.1. Condition of tree(s) - e.g. it is diseased or you have fears that it might break or fall : If YES, you are required to provide written arboricultural advice or other diagnostic information".

8.2 - Is the tree(s) in question causing damage to the property e.g. subsidence or damage to drains or drives? Yes or No?

The application form states: "8.2. Alleged damage to property - e.g. subsidence or damage to drains or drives : If YES, you are required to provide for :

Subsidence - A report by an engineer or surveyor to include a description of damage, vegetation, monitoring data, soils, roots and repair proposals. Also, a report from an arboriculturist to support tree work proposals.

Other structural damage (e.g. drains, walls and hard surfaces) - Written technical evidence from an appropriate expert, including description of damage and possible solutions".

Please could you provide the above information at your earliest convenience as I am unable to proceed with the validation of your application without it.

Kind regards

**Oliver Robson**
