

No	Species	Description	Action
1	Beech	Mature tree has severe lean toward northwest.	Retain at present.
2	Beech	Three-stemmed, mature tree.	Retain at present.
3	Beech	Mature tree with slight lean over caravan 67.	Cut ivy at base of tree to prevent it becoming dominant in crown.
4	Oak	Mature tree, appears healthy.	Retain at present.
5	Oak	Mature tree, appears healthy.	Remove branch over caravan 66 and lift crown.
6	Oak	Twin-stemmed, with tree appearing healthy.	Thin canopy over crown to reduce weight on divergence angle.
7	Beech	Twin-stemmed tree, appears healthy.	Retain at present.
8	Lime	Three-stemmed tree.	Retain at present.
9	Spruce	Three trees adjacent to caravans 60 and 62.	Retain and inspect at regular intervals.
10	Spruce	Three trees, appear healthy.	Retain and inspect at regular intervals.
11	Oak	Mature tree, twin-stemmed at 7m.	Lift crown over caravan 59.
12	Spruce	Three trees.	East tree has divergence angle with slight split developing. Reduce height by 3m and thin canopy.
13	Beech	Twin-stemmed, mature tree. Appears healthy.	Retain at present.
14	Beech	Large stem has been removed in part, no rot evident.	Retain at present.
15	Beech	Tree appears healthy.	Retain at present.
16	Beech	Twin-stemmed tree. Limb has been removed in past. Appears healthy.	Retain and inspect at regular intervals.
17	Birch	Tree has canopy with deadwood. Branches are thinning.	Retain and inspect at regular intervals.
18	Birch	Tree appears healthy.	Retain at present.

No	Species	Description	Action
19	Beech	Limb has been ripped off toward river in past.	Retain and inspect at regular intervals.
20	Oak	Tree appears healthy.	Thin branches away from caravan 48.
20a	Pine	Tree appears healthy.	Retain at present.
21	Spruce	Tree appears healthy.	Thin 20% to reduce 'sail' effect.
22	Beech	Mature tree.	Remove limb to northeast over caravan 47.
23	Beech	Mature tree, three-stemmed.	Retain and inspect at regular intervals.
24	Spruce	Four mature trees. Growing too large for proximity to caravan.	Fell.
25	Beech	Mature tree. Appears healthy.	Retain at present.
27	Horse chestnut	Mature tree.	Remove limb toward caravan 42, growing to northeast.
28b	Sitka spruce	Seven trees along northeast boundary close to pitch 37 and 38. Tall thin trees, with canopy at height. Trees appear healthy, but are shallow rooting and prone to windblow.	Fell due to safety concerns and to remove suppression of mature oak tree behind them.
29	Ash	Tree is dying.	Fell.
30	Ash	Mature tree.	Retain at present.
31	Ash	Mature tree. Topped in past at 11/12m.	Retain and inspect at regular intervals.
31a	Ash	Mature tree. Topped in past at 11/12m.	Retain at present.
32	Norway maple	Pollarded tree	Retain and inspect at regular intervals.
33	Oak	Tree has had branches removed over caravans 24 and 25 in the past.	Remove further branch over caravans.
35	Fir	Tree appears healthy.	Thin canopy to remove larger overhanging branches.

No	Species	Description	Action
36	Fir	Tree appears healthy.	Thin canopy to remove larger overhanging branches.
37	Oak	Tree appears healthy.	Crown lift to clear caravan 22.
38	Sycamore	Tree appears healthy.	Retain at present
39	Oak	Tree appears healthy.	Crown lift by removing one branch.
40	Lime	Tree appears healthy.	Retain at present.
41	Ash	Rot at 8 - 9m. Tree has been pollarded above rot.	Retain at present.
41a	Oak	Tree appears healthy.	Remove branch growing over caravan 14.
42	Holly	Tree appears healthy.	Trim.
43	Oak	Tree appears healthy.	Retain at present.
44	Lime	Tree appears healthy.	Retain at present.
45	Beech	Tree appears healthy.	Retain at present.
45a	Fir	Adjacent to caravan 8, growing into canopy of neighbouring beech.	Reduce by 3m.
46	Sweet chestnut	Tree appears healthy.	Retain at present.
47	Sweet chestnut	Tree appears healthy.	Remove branch over caravan 8 and two branches at height growing to south.
48	Cherry	Tall, thin tree on bank.	Retain and inspect at regular intervals.
48a	Lime	Mature tree, appears healthy.	Retain at present.
49	Oak	Tree appears healthy.	Retain at present.
50	Oak	Tree appears healthy.	Retain at present.
51	Cherry	Tree appears healthy.	Retain at present.
52	Cherry	Tree appears healthy.	Retain at present.
53	Sweet chestnut	Multi-stemmed, semi-mature tree, leans toward caravans 2 and 3.	Retain at present.
54	Oak	Tree appears healthy.	Thin 30% of large limb over caravan hard standing 21 (as in 2022).

● Trees surveyed - no action
● Fell for health and safety
● Trees requiring management works (see table opposite and report BLCP-2310-TM for details)

Note: The original of this drawing was produced in colour – a monochrome copy should not be relied upon

Tree Survey at Banchory Lodge Caravan Park Tree Management
