Supporting Statement

Proposal Reference: 100633602

Planning Proposal: Erection of double gates at entrance to driveway at property.

Supporting Statement: The purpose of the gates is to provide privacy and security by preventing unauthorised and unwanted vehicles from entering the driveway.

An application to erect gates was previously made in April 2018, (Proposal Reference 100034000), but as the time period in which to carry out the work elapsed I am making this new application.

Sincerely

A handwritten signature in black ink, appearing to read 'Douglas Foy', written in a cursive style.
