

Re: Yateley Town Council Council Offices, Reading Road,
Yateley, Hampshire, GU46 1PR

PROPOSED INSTALLATION OF 18 PV SOLAR PANELS TO THE
ROOF OF COUNCIL OFFICES AND 33 PV PANELS TO THE
ROOF OF THE TYTHINGS.

PLUS

CONVERT REDUNDANT TYTHINGS' CHANGING ROOMS
TO A COMMUNITY HUB

HERITAGE STATEMENT

In preparing this application, particular consideration
was given to its location in the Yateley Green
Conservation Area

Accordingly, the panels will colour match the existing
roof cladding

This and their 'near flush' fit following the angle of
pitch will minimise any visual impact.

Likewise, the proposed new entrance door to the
Community Hub will also comply with the colour, design,
dimensions and material of the existing doors.

It is felt that this plus the PV panels and new door
being unsighted from the Reading Road and only
visible from a greater distance at Fyfe Grove Road will
make this proposal's impact acceptable.
