Ref: Five Day Notice

Dear Sirs,

I write further to visiting a client of ours who has approached us regarding concerns over the safety of a large Oak tree situated at their property.

The tree is located at:

Laurels
Pine Avenue
Camberley
GU15 2LY

Having thoroughly inspected the tree we are of the opinion that it has become unsafe and is prone to imminent failure. The canopy is almost entirely dead and the little remaining epicormic growth is likely being generated by the residual potential energy. We feel that in this instance a Five-Day Notice is appropriate and would therefore like to inform you that our intention is to remove this tree once a period of five days has elapsed.

The tree is subject of Tree Preservation Order:

TPO/3/99

Please feel free to contact me with any queries.

Yours sincerely

William McGuinness
