

Cover letter for discharge of conditions 3 & 4(23/P/01588)

Date: 16/11/2023

Applicant: Mr W Gong

We would fit an EV charging point, please see the Document-1 for the item details.

We plan to fit an electric bike storage, it comes with a (pre-drilled) metal socket mounting plate, for detailed product description and item images, please see Document 2.

We would fit a 1/4 to 4 hour timer to the power supply of sockets, for more details about the product, please see Document-3.

The location of the EV charging point and bike storage, please see PIC-1 and PIC-2.
The EV charger point would be at the front, and there would be a power switch indoor.
The bike storage would be in the rear garden.

PIC-1
