Subject: [External] >> Re Trees

Good Afternoon,

I hope you are well.

I spoke to Alison at Uttlesford yesterday with regards to a few trees bordering the car park in our picnic area.

We have 2 populars, 1 sycamore and 1 cherry tree, which are all young trees.

We have found they are rotting in the trunks (please see photos attached) and causing damage to our buildings and for the health and safety aspect of public visiting us, we are writing for permission to cut the trees down.

Alison advised that this shouldn't be a problem, but I am just writing to confirm that this is ok to cut the trees down?

Kind Regards

Jeremy
