

NESTING
Mature 3m high, 1m thick hedge

NESTING
Mature Mirabelle Plum trees, min 5m high, 1.5m thick

Wild corner
Long grasses and wild flowers - not cut

Veg plot

SITE PLAN 1:200

The Mirabelle Plum hedges in the Western site boundary, proposed by CEZ need above. It is to be retained. Some works to 'top up' and reduce the hedge height have been undertaken recently. These works in accordance with planning approval 17-0134-FULL. Any future work to the hedge will also occur with the principals set out in this report.

CONTRADICTIONS CONCERNING:
Proposed CRSS (Construction Phase Site Storage) are to be used as mirabelle hedges. No storage of materials is to take place within the secondary hedge.

Proposed tree planting is specific to this proposal, other than those already in place. The same as those proposed for application 17-0134-FULL, with existing MUX 128-2 being the appropriate comparable document.

MAIN STREET

- Hedgehog run
- Stone pile
- Compost
- Log mound
- Water, variable depth, self-sustaining
- Drainage
