To whom it may concern,

We the undersigned understand that Dr Judith Waine, who lives at Blenheim Cottage, needs neighbours to confirm the use of Blenheim Cottage PRIOR to her moving there in July 2015.

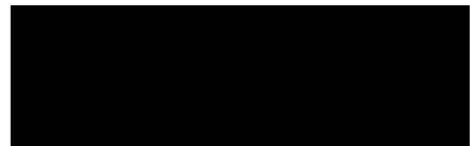

We have lived at Primrose Villa, The Square, for the past 18 years and we write to confirm that to the best of our knowledge, Blenheim Cottage was not used as a holiday rental, rather it was used by local people who needed a residential home. There was a family with several children who lived there for possibly a year or more and another couple who lived there before buying there own house in the next road. He is the founder of Freshwater Bay paddle boards and she is a children's author.

We hope this information is of use.

Yours sincerely,

Andrea Entiroldi
