## Eligibility

Permitted development rights are subject to conditions set by legislation to ensure that only appropriate proposals are eligible. The need to apply to the Local Planning Authority to see if prior approval is required is one such condition.

**Important** - Please note that:

- This application is specifically for a 'larger' single storey rear extension to a house, and the questions below are particular to determining the eligibility of proposals for this extension type.
- Other kinds of home extensions do not use this 'prior approval' process and should not be applied for using this type of application.
- There are additional permitted development conditions that apply to all home extensions which are not covered in the questions below, [they can be reviewed in our common projects section](#). If your proposals do not meet these conditions, it is advisable not to continue with this application.

## Description of Proposed Works

Please describe the proposed single-storey rear extension

We are applying for Permitted Development within the Larger Home Extensions: Neighbour Consultation Scheme to build a 6 metre rear extension to an end terrace house at 91 Milcote Road, Smethwick B67 5BG.

As per attached plans, this proposed extension will infill the area between the current rear reception room and kitchen, to create space for a dining area.

As the house is an end terrace, this extension cannot be seen from 92 Milcote Road, our next door attached neighbour, and will have no impact on their amenity.

The extension cannot be see from our front neighbour at 90 Milcote Road.

The extension will also have no impact to our neighbours at the rear of the property on Bishopton Road, as this will be at least 30 metres away.

We will ensure that it complies with all Permitted Development guidelines, including ensuring the aspect facing the highway (Adkins Lane) does not extend beyond the current side boundary of the house.

## Measurements

Please provide the measurements as detailed below.

Where the proposed extension will be joined to an existing extension, the measurements provided must be in respect to the total enlargement (i.e. both the existing and proposed extensions) to the original dwellinghouse.

How far will the extension extend beyond the rear wall of the original dwellinghouse (in metres, measured externally)

What will be the maximum height of the extension (in metres, measured externally from the natural ground level)
