

Proposed work for Franche House Wolverley Road

Tree number/species	Proposed work
<p>T7 <i>Platanus x Acerfolia</i> / <i>Platanus x Hispanica</i> (London/Hybrid plane),</p>	<p>To fell and remove due to cavity at base/basil decay, dysfunction on lower scaffold limbs + host of suspected <i>Cerioporus squamosus</i>.</p> <div data-bbox="528 398 1070 801"></div> <p data-bbox="1091 398 1369 801">Basil Cavity/Rot</p> <div data-bbox="528 835 1070 1552"></div> <p data-bbox="1091 835 1369 1552">Dysfunction to Scaffold limbs overhanging adjacent property</p> <div data-bbox="528 1592 1070 1995"></div> <p data-bbox="1091 1592 1369 1995">Possible <i>Cerioporus squamosus</i> fruiting body</p>

T5

Quercus Robur
(Penduculate Oak),

To reduce crown by Approx. 2 meters, cut back from property to achieve clearance of up to 2 meters, and remove dead wood.

Crown extends over property and boundary significantly and contains larger diameter dead wood, exhibiting thinning of inner crown.
