4 Brief Description of proposed development	
<i>Please note: Proposals should relate to one development proposal in respect of the site. We will not accept many options for development under a single pre-application enquiry.</i>	
<p>We are private purchasers and wish to build one dwelling on the land. A family home for myself and my husband and to accommodate our family for visits.</p> <p>We would very much want to have a low impact on the environment and wish to look at alternative energy solar wind? And to look at how waste is managed. We are happy to be one level and in keeping with the landscape and to use materials sympathetic to the surroundings.</p> <p>We would like to grow as much of our own food organically and will work to meet the organic standard on the land. I volunteer with the National trust and support the restorative / conservation work they are doing with the conservation ponies and would like to have animals for that purpose on the land. There is a small hamlet of homes around the land that have been established for some time and I am sure that we could build a home in order to minimise our carbon foot print and still fit within the current environment.</p>	

Do you have any specific questions you would like answered?

Whether we have any prospect/ possibility of being able to realise our hope to live in such a beautiful place with as little disruption to the environment as is possible
