## Description of Proposal

Does the proposal consist of, or include, the carrying out of building or other operations?

Yes

No

If Yes, please give detailed description of all such operations (includes the need to describe any proposal to alter or create a new access, layout any new street, construct any associated hard-standings, means of enclosure or means of draining the land/buildings) and indicate on your plans (in the case of a proposed building the plan should indicate the precise siting and exact dimensions)

Replacement of existing timber sash windows (single glazed) with identical timber sash windows (double glazed)

Does the proposal consist of, or include, a change of use of the land or building(s)?

Yes

No

Has the proposal been started?

Yes

No

## Grounds for Application

### Information about the existing use(s)

Please explain why you consider the existing or last use of the land is lawful, or why you consider that any existing buildings, which it is proposed to alter or extend are lawful

Under the Town and Country Planning Act planning permission is needed for 'development' and 'development' is defined as the carrying out of building or other operations which materially affect the external appearance of a building, or land (or the making of a material change of use of buildings or land).

The replacement of the existing timber sash windows with identical new timber sash windows (albeit double glazed) would not result in a material change in the external appearance of the building and would not therefore constitute development for which planning permission is needed.

(The change from single to double glazed would not result in a change to the external appearance of the building. For Listed Buildings, the change from single glazed to double glazed windows can require Listed Building Consent. But for non-listed buildings, albeit in Conservation Areas, this change does not trigger a requirement for a planning permission).

Please list the supporting documentary evidence (such as a planning permission) which accompanies this application

Select the use class that relates to the existing or last use.

C3 - Dwellinghouses

### Information about the proposed use(s)

Select the use class that relates to the proposed use.

C3 - Dwellinghouses

Is the proposed operation or use

- Permanent  
 Temporary

Why do you consider that a Lawful Development Certificate should be granted for this proposal?

Under the Town and Country Planning Act planning permission is needed for 'development' and 'development' is defined as the carrying out of building or other operations which materially affect the external appearance of a building, or land (or the making of a material change of use of buildings or land).

The replacement of the existing timber sash windows with identical new timber sash windows (albeit double glazed) would not result in a material change in the external appearance of the building and would not therefore constitute development for which planning permission is needed.

(The change from single to double glazed would not result in a change to the external appearance of the building. For Listed Buildings, the change from single glazed to double glazed windows can require Listed Building Consent. But for non-listed buildings, albeit in Conservation Areas, this change does not trigger a requirement for a planning permission).

A Certificate of Lawfulness should therefore be granted.
