Description of Works

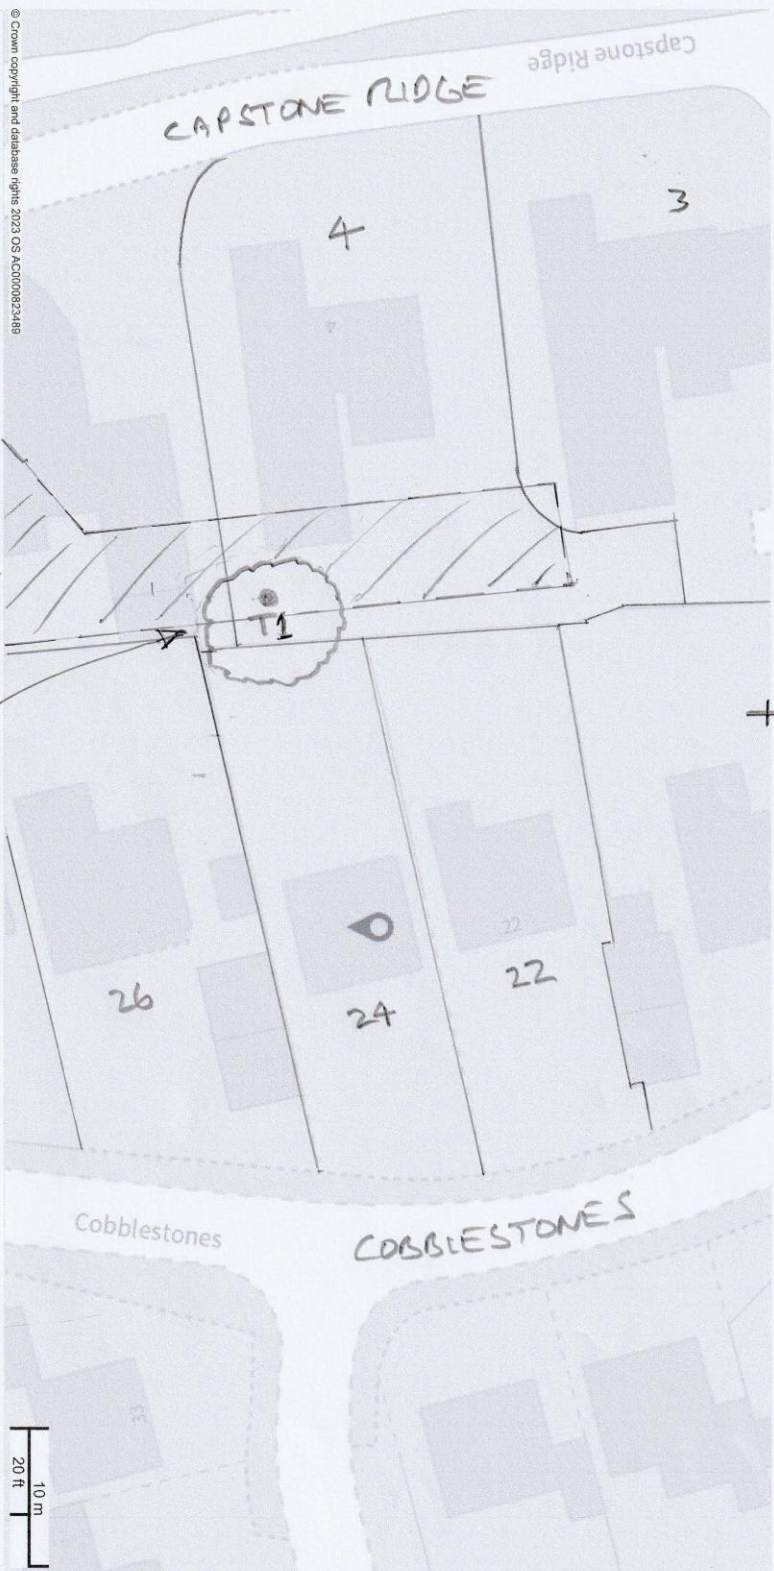

Works required to Tree ref T1 on Sketch Plan - *Carpinus Betulus* – Hornbeam.

Tree located within the grounds of No4 Capstone Ridge, close to the East boundary with No24 Cobblestones

Branches of this much loved, fine tree have grown over the years and now overhang the boundary fence restricting daylight and adversely affecting growth of plants and trees in the garden of No24 Cobblestones.

Proposed work is to remove branches overhanging the boundary to a height of 8m from ground level.

Appearance of the tree from the South indicates that this action would also benefit the ‘balance’ of the tree.
