## Draw an outline of the site

The site outline is often the same as the property boundary. This includes any gardens or outside spaces. You should include:

- all the changes up to a public road or pavement
- any work outside the property boundary (such as dropped kerbs)
- areas that will be closed off during the work
- access areas to the works (such as roads and tracks)

The site outline you have drawn is ~~0m~~

THE LENGTH IS 2.7 METERS 3 KERB STONES
