Case Officer: Mr Tony Jackson

Consultee Details

Name: Mr THOMAS ANTHONY BRANDRETH

Address: Council Offices, Wesley House, Corporation Street, St Helens WA10 1HF

Email: Not Available

On Behalf Of: Trees And Woodlands Officer

Comments

Following on from earlier site visits and the sharing of various images and correspondence (see photographs) I am happy to support this removal of the tree, owing to an extensive out break of Honey Fungus (*Armillaria* sp.)

I would therefore support the following work

T1 Beech. Removal and replacement with tree species and location to be agreed with LPA.

Tree Work

All work carried out on this tree should be carried out to British Standard BS 3998 (2010) with work only taking place between the 31st August and the 31st March* to avoid disturbance to breeding birds. Any work outside this period can only be carried out if the tree is first inspected to ensure there are no breeding birds present (The St. Helens Trees and Woodlands Officer 01744 676189 email: thomasbrandreth@sthelens.gov.uk can advise further if contacted prior to any work, which has been given consent, takes place) or to address an immediate safety issue.

Anthony Brandreth

Trees and Woodlands Officer
