Dear Sir/Madam

We would like to apply for planning permission for our client Yogesh Jalli

Who has two trees T1 and T2 They are one Maple tree T1 and one False Acacia tree T2 in the Bexley area

This Maple tree T1 needs to be felled as the tree is dead and decayed at the base The False Acacia tree T2 needs to be felled then treated with Eco plugs This is because the roots has an outburst of suckers growing from the root system These are appearing in neighbours gardens and our client is receiving numerous complaints Due to the complaints and the high winds recently my client would like the trees felled

In my opinion the Maple tree T1 and the False Acacia tree T2 needs this work to be carried out for the safety of the property and neighbouring properties and gardens

Kind regards
