Comment: I can see no logical reason why permission would be granted for yet another cafe in Hythe. There are already multiple and varied cafe/eatery options in the same vicinity and ultimately I think approving further businesses of this nature is irresponsible; it overloads the area with too many of the same premises whilst also placing the current and much loved businesses of this type at risk. As a small village, hythe centre can only realistically support a certain number of eateries and beyond that there just isn't sufficient trade to make these businesses viable. As a family that have previously owned businesses in hythe (for over 30 years), it saddens me that family run businesses that have invested in maintaining the community and contributed consistently to Hythe, might be placed at risk if this proposal were approved. I strongly object.
