Comment: I'm a resident who lives next door, honestly I wouldn't want to find myself living constantly with an extractor fan constantly on, unable to open the windows due to the smell of grease that would constantly come from that property. Furthermore, at 5pm when the various shops close the gate is locked for residents, I would like to continue to have that night-time security of being able to lock the gate. Having already another café with the tables displayed outside, I believe that by allowing them to put other tables we residents would be unable to walk to go home (the space is limited)! Finally, I would like to say that I don't think Hythe needs more cafes, the high street is already full of them, so being a small village it would put the various shops (which offer food) in difficulty in staying open and working with the quantity of people present in the village.
