

Application for prior approval of a proposed: Enlargement of a dwellinghouse by construction of additional storeys

Town and Country Planning (General Permitted Development) (England) Order 2015 (as amended) - Schedule 2, Part 1, Class AA

Publication of applications on planning authority websites

Please note that the information provided on this application form and in supporting documents may be published on the Authority's website. If you require any further clarification, please contact the Authority's planning department.

Site Location

Disclaimer: We can only make recommendations based on the answers given in the questions.

If you cannot provide a postcode, the description of site location must be completed. Please provide the most accurate site description you can, to help locate the site - for example "field to the North of the Post Office".

Eligibility

Permitted development rights are subject to conditions set by legislation to ensure that only appropriate proposals are eligible.

The need to apply to the Local Planning Authority to see if prior approval is required is one such condition.

The questions below will help determine if the proposals are eligible for this permitted development right.

The current building and site

Was the current use of the building as dwellinghouses only granted by virtue of permitted development rights under Schedule 1, Part 3, Class G, M, MA, N, O, P, PA or Q of the Town and Country Planning (General Permitted Development) (England) Order 2015 (as amended)?

- Yes
 No

Was the current building constructed between 1 July 1948 and 28 October 2018?

- Yes
 No

Have additional storeys already been added to the original building (as it stood on 1 July 1948, or as built after that date; or, if 'Crown land', as it stood on 7 June 2006, or as built after that date)?

- Yes
 No

Is any part of the land or site on which the building is located:

- in a conservation area;
- in an area of outstanding natural beauty;
- in an area specified by the Secretary of State for the purposes of enhancement and protection of the natural beauty and amenity of the countryside;
- in the Broads;
- in a National Park;
- in a World Heritage Site;
- in a site of special scientific interest

- Yes
 No

The proposed development

Will the proposed additional storeys only be constructed on the principal part of the building (i.e. the main part of the building excluding any front, side or rear extension of a lower height, whether this forms part of the original building or a subsequent addition)?

- Yes
 No

Would the floor to ceiling height, measured internally, of any proposed additional storey exceed:

- 3 metres; or
- the floor to ceiling height, measured internally, of any existing storey of the principal part of the existing building

- Yes
 No

Would the proposed extended building's:

- height exceed 18m (as measured from ground level to the highest part of the roof); or
- roof be:
 - more than 3.5 metres higher than the highest part of the existing roof, where the existing building consists of one storey above ground level; or
 - more than 7 metres higher than the highest part of the existing roof, where the existing building consists of more than one storey above ground level.

- Yes
 No

If the dwellinghouse is not detached, would the proposed extension result in the highest part of the roof exceeding 3.5 metres above either:

- the highest part of the roof of the building it is joined to (e.g. by party wall or adjoining main wall); or
- if in a terrace, the highest part of the roof of any building in the row it is situated

- Yes
 No/The dwellinghouse is detached

Will the development include a window in any wall or roof slope forming a side elevation of the building?

- Yes
 No

Will the roof pitch of the principal part of the proposed extended dwellinghouse be the same as the roof pitch of the existing dwellinghouse?

- Yes
 No

Will the materials used in any exterior work be of a similar appearance to those used in the construction of the exterior of the existing dwellinghouse?

- Yes
 No

Following the development, will the dwellinghouse remain in use within Use Class C3 and for no other purpose, unless that purpose is ancillary to the primary use as a dwellinghouse?

- Yes
 No

Related operations and works

Will any proposed engineering operations reasonably necessary to construct the additional storeys include:

- Provision of visible support structures on or attached to the exterior of the building upon completion of the development; or
- Anything other than works within the existing curtilage of the building to strengthen existing walls or foundations

- Yes
 No

Description of Proposed Works, Impacts and Risks

Proposed works

Please describe the proposed development including details of any works proposed

Refer also to submitted drawings.

The proposal is for an additional full storey to be provided to the existing bungalow of Hillsview. The additional storey will add 2.68m to the ridge height of the dwelling. The new roof angle / form will match the existing. It is envisaged that the additional storey will simply be built up off the existing cavity walls without the need for any remedial works.

Please describe the effects of the proposed development on the external appearance of the building including the design and architectural features of the principal elevation (and any side elevation that fronts a highway)

Refer also to submitted drawings.

The materials proposed will closely match the existing: brickwork, timber cladding and concrete roof tiles.
The architectural features proposed will match the existing, including bay projections, window fenestration etc.

The configuration of the property on the site is such that it has two elevations that front Holt Lane (south and west), but neither of which have what one would consider as the front door. The elevations to the south, west and east cause no overlooking issues. No new fenestration has been shown at first floor level to the north elevation.

In the case of upwards extensions consideration must be given to every face of the building

Measurements

What is the current height of the dwellinghouse (in metres, as measured from ground level to the highest part of the roof).

5.35

What will be the height of the dwellinghouse once the additional storeys are added (in metres, as measured from ground level to the highest part of the roof).

8.03

Impacts and risks

Please provide details of any air traffic and defence asset impacts and how these will be mitigated

Not applicable

Please provide details of the impacts of on the amenity of any adjoining premises including overlooking, privacy and the loss of light and how these will be mitigated

The additional storey to Hillsview will have no impact in terms of overlooking, privacy or loss of light to Cuckoo's Corner bungalow. The increase in ridge height proposed is just 3m above that of the existing.
Cuckoo's Corner bungalow benefits from its finished floor level sitting higher than Hillsview within the landscape, with its main habitable rooms located to the west, benefitting from views towards Client Hills. The relationship between Hillsview and Cuckoo's Corner bungalow is such that direct south light will not be affected to Cuckoo's Corner bungalow. The amenity space to Cuckoo's Corner bungalow will not be affected as this is located to its north west, and therefore away from Hillsview located to the south west.

In the case of upwards extensions this includes neighbouring properties which are not contiguous with the proposed development site. Further details should be provided for these application types

Where relevant (due to the siting of the building), please provide details of the impact on any protected view.

There are no protected views.

These are identified in the Directions Relating to Protected Vistas dated 15 March 2012 issued by the Secretary of State.

Declaration

I/We hereby apply for Prior Approval: Additional storeys on a dwellinghouse as described in the questions answered, details provided, and the accompanying plans/drawings and additional information.

I/We confirm that, to the best of my/our knowledge, any facts stated are true and accurate and any opinions given are the genuine opinions of the person(s) giving them.

I/We also accept that, in accordance with the Planning Portal's terms and conditions:

- Once submitted, this information will be made available to the Local Planning Authority and, once validated by them, be published as part of a public register and on the authority's website;
- Our system will automatically generate and send you emails in regard to the submission of this application.

I / We agree to the outlined declaration

Signed

Mark Griffiths
