Subject: Full Fibre infrastructure for your new development - NSI: [BS/D/00L] - [121 College Road, BRISTOL, BS8 3HX]

Hi Ryan,

Thanks for choosing to register your development with Openreach . Your site has access to the latest Full Fibre gigabit capable infrastructure, enabling ultrafast speeds for your new build homes.

Gigabit capable infrastructure is now required in all new build properties across England as per the DCMS legislation change to the Building Regulations 2010. This change came into place from 26th December 2022 and applies to all new homes gaining planning permission after that date. Openreach Full Fibre infrastructure is fully compliant with the legislation.

Your site has been fully registered with us and progressed to our Planning Team for a Fibre to the premise (FTTP) solution. Once our planning team have completed a proposal to serve your site, your Field Based Coordinator (FBC) will get in touch to arrange a site visit to review and agree the proposal with you in person, at which stage the FBC will also review your First Service Date (FSD) requirements.

Your FBCs details can be located on your site registration on Developer Portal.

Kind Regards,

Anjali Pathak

FND Customer Experience
