Drawing and design are copyright of Dsign House Architecture Ltd unless specified otherwise in writing. All works shown on the drawings are to be in accordance with the applicable planning, building control and relevant codes of practice and/or British Standards unless specified otherwise. All works to be carried out in accordance with current regulations for health and safety, Construction Design and Management Regulations also require that a principal designer is appointed for each project. We do not undertake the role unless agreed in writing prior to commencement of works. This can be undertaken by the client (employer) or an individual practice designed to be otherwise approved. Public Areas under or within the of a foundation footprint must be located on site and also verified to the appropriate Water Authority where required by the clients or contractors and submitted 14 days before the commencement of work. Any verbal Authority Building over Agreements should be confirmed and agreed with the authority by the client. The client/contractor are responsible for the approval of any specialist planting conditions where required. Do not scale or take digital dimensions from this drawing. All constructional dimensions contained in the drawings should be checked on site prior to construction. Calculations and areas for all structural elements to be provided by a structural engineer to the Building Control Officer and contractor prior to commencement of works. Any discrepancies should be notified to the practice without delay.
