

Sustainability Statement - minor applications

Sustainability standards	Yes	No			
A Net zero carbon					
Has the building fabric been designed to standards of ultra-low energy demand?		X			
Has thermal comfort and the risk of overheating been assessed and passive design measures been prioritised?		X			
3. Is the development fossil fuel free?		X			
Will a net zero operational carbon balance be achieved and 100% of energy consumption delivered using renewables?		×			
5. Will embodied carbon emissions be minimised?		人			
B Travel					
Is home working supported?		X			
Has active travel been prioritised?		X			
Is shared mobility facilitated?		X			
Will electric vehicle charging infrastructure be provided?		×			
APPULANTS HAVE AN EV.					
C Water					

1.	Will water consumption be minimised?	/		
2.	Will water be conserved through rainwater harvesting or grey water recycling?		×	
_				
3.	Has the flood risk assessment accounted for climate change and is sustainable drainage proposed?			
	1/A			
D	Waste			
1.	Will the construction company be registered with the Considerate Construction Scheme?		×	
2	MACHINE CO. MACHINE DI LI CIII			
2.	Will a Site Waste Management Plan be followed and targets set for construction waste recycling and disposal?		×	
3.	Will there be safe and convenient access to waste recycling?		×	
E Voluntary sustainability standards				
1.	Will non-domestic development be BREEAM certified?		×	
	Will the development receive a sustainability accreditation and/or follow recognised sustainability principles?		X	
		100		
FC	Only for development affecting heritage assets or traditional buildings			
	Have the heritage value of the building(s) and impact on any heritage asset been appropriately assessed?	/		
2.	Is a whole building approach being taken?		×	
3.	Will responsible retrofit measures be adhered to?	/		
A	s for as is practicable
