Dear Sir/Madam

Cycle Stands, Riverside, Eynsford DA4 0AE

I am applying for a Lawful Development Certificate to erect 3 stainless steel cycle stands at the location shown on the plan adjacent to the ford at Riverside. The stands are each 80cm long and would stand 75cm high from the ground.

Riverside and Eynsford are popular destinations for cyclists and we believe that there is a need for secure places for people to leave their bikes. Currently the only cycle stands at the primary school and the station, both some distance away. As a council we would like to encourage more people to travel on bicycles rather than driving.

If you need any further information, do not hesitate to contact me.

Yours faithfully

Holly Ivaldi
