

Heritage Statement Template

This template has been prepared to guide applicants and their agents in preparing heritage statements or statements of heritage significance. As required by the NPPF, the detail of statements must be proportionate to the significance of the asset and enough to understand the potential impact of a proposal on the significance of a heritage asset. Therefore, in many cases the template will only serve as a framework and a more detailed assessment will be required; this may include professional building analysis and research or comprehensive reports on significance and impact. It is strongly suggested that for all proposals that a suitably qualified heritage professional be involved, please see the [IHBC \(external website\)](#) for further information.

Please include relevant illustrations and photos to support your Heritage Statement.
