Details of the pre-application advice received

A detailed letter was provided in response to the pre-app scheme. The site is generally considered to be sustainably located. The main issues will relate to character of the area, heritage impact, amenity standards, impact on neighbours, biodiversity, highways impact and parking provision.

Retention of the existing building is desirable and welcomed.

It is agreed that the features affected by the scheme are not key in appreciating the building's significance. Consideration of required of amenity and neighbour issues. Biodiversity -bat survey should be updated and biodiversity net gain assessed. 1 parking space per unit is considered appropriate. Consideration will be required of improvements to the building fabric and renewable technologies.
