1400 Double Walled UG Oil Tank

A pioneering new addition to Harlequin's Underground Oil Tank range, the 1400 Double Walled Underground Oil Tank fully complies with all existing regulations.

Underground fuel oil storage is ideal and a popular choice for small gardens and sensitive landscapes.

Double walled design is complete with an interstitial leak detection monitor and fully complies with BS5410-1.

A basin at the top of the tank neck contains:

- ▶ 2" fill point
- ▶ Offtake (Anti siphon valve & filter)
- ▶ Contents gauge
- ▶ Overfill prevention valve
- ▶ Tiger loop
- ▶ Interstitial Leak Detection Monitor

Length: 2,000mm
Width: 1,250mm
Height: 1,969mm
Weight: 220kg
Capacity: 1,370 litres

All of which are easily accessed via the lockable lid.
