Hi,

Please find attached amended elevations drawing.

Note, due to the nature of the structure the side poles vary in height between 4.5m and 5.5m in height, this is dependant on the angle of incline required to adequately tension the canvas.

Many Thanks.

Hi,

The development control manager requires the height to the top of the outside tent poles before she allocates it to a planning officer.

We have the maximum height of the canopy but please request the height to the top of the outside tent poles.
